

**SIMARK
CONTROLS**

For Immediate Release:

SIMARK CONTROLS LTD. AND INVENSYS FOXBORO May 17, 2005

Simark Controls is pleased to announce the addition of Invensys Foxboro to our family of product lines represented in Alberta and British Columbia.

The addition provides our valued clients the channel to Foxboro's World Class Field Measurement and Control Products and DCS Process Systems.

With the addition of Invensys Foxboro, our value to our clients increases from our traditional turbine flow meters, gas/flame detection, RTUs / SCADA / EFM and A.C. motor/drives, to solutions from wellhead measurement/control to entire plant measurement and DCS control systems.

We are prepared to demonstrate Foxboro's World Class Field Measurement and Control Products and DCS Process Systems. Please contact your local Simark representative for additional information or visit our website at www.simark.com.
